Generative AI represents an enormous opportunity

Reduce busywork

Radically rethink your workday. Delegate tasks to AI and protect focus time for the creative work that leads to innovation. Produce high-quality work in half the time.

End information overload

Quit mentally absorbing unnecessary information. Get answers instantly, identify only the important information, and restructure your day for success.

Work smarter, not harder

Quit spending so much time in your inbox. And make meetings more efficient with AI-powered intelligent meeting recaps, transcripts, and recordings.

Introducing Copilot for Microsoft 365: A whole new way to work

Copilot

Copilot for Microsoft 365 will help lighten the load

Built on Microsoft's comprehensive approach

Embedded across Microsoft 365 apps

Turn words into a powerful productivity tool

Natural Language

Large Language Models

Microsoft Graph - Your Data

Microsoft 365 Apps

Embed AI-powered Copilot into the apps you use every day

Amplify creativity

Be more creative in Word, bring ideas to life in PowerPoint, analyze trends in Excel, lighten the load in Outlook, summarize conversations in Teams, and more.

Unlock productivity

Unlock data and knowledge across your organization. Combine Large Language Models with your data and turn your words into the most powerful productivity tool on the planet.

Trust in responsible AI

Count on Microsoft's comprehensive approach to security, compliance, privacy, identity, and responsible AI. Configure access and governance policies to keep data protected.

Accelerate innovation with Copilot for Microsoft 365 today!

As a Microsoft Partner, we can ...
